Opportunities for the AAL community in Austria

1. *Introduction*

Introduction

This report provides the AAL Community with practical information about the opportunities offered by Austria and related regional programmes and networks.

The aim of this information is to:

Support AAL partners in their path to market by informing about services complementary to the ones AAL Programme provides (see <http://www.aal2business.com/>) and help AAL partners getting in touch with important actors in their countries.

AAL partners can also apply for tailored support from AAL CMU on how to leverage opportunities offered at national and regional level

This report is created by the AAL2Business support action and funded by AAL Programme. For Austria, [cogvis software und consulting GmbH](#) has collected the support organisations

Opportunities for the AAL community in Austria

2. National Programmes

National Programmes

Programme 1:

BENEFIT

INTELLIGENT
TECHNOLOGIES
FOR OLDER
PEOPLE

<https://www.ffg.at/benefit>

The Austrian programme "benefit" promotes research and development of ICT products and services aimed at maintaining and improving the quality of life of older people and helping them to live more independently as long as possible.

"benefit" is a programme of the Federal Ministry for Transport, Innovation and Technology (BMVIT) managed by FFG.

Kind of support: Financial contribution, up to 80% funding rate

Eligibility criteria: Companies of any legal form, including e.g. local authorities and secondary and tertiary end-user organisations; Institutions of research and knowledge dissemination.

Type of project: collaborative projects

Programme benefit launches calls on a yearly basis. A new call is expected in autumn 2018.

1st contact: Dr. Gerda Geyer

T: (0) 57755-4205, gerda.geyer@ffg.at

In addition to funding by programme benefit, AAL projects can be supported by other FFG bottom up programmes or in specific thematic calls (see <https://www.ffg.at/>)

Förderpilot (see <https://www.foerderpilot.at/>)

This is an online platform providing beneficiaries with information about the most suitable funding organisation and funding programme in Austria for their specific idea.

Opportunities for the AAL community in Austria

2. Regional Programmes

Regional Programmes

Programme 1:

The Vienna Business Agency, Healthcare 2018

<https://wirtschaftsagentur.at/>

The Vienna Business Agency is the first port of call for national and international companies. It provides financial support, real estate and urban development impulses as well as free service and advice.

With the current call "Healthcare 2018", the Vienna Business Agency supports research and development projects related to the prevention, early detection, diagnosis, therapy, care, rehabilitation and aftercare of human diseases.

Supporting R&D projects in the healthcare system

Funding rate: Small companies 45%, medium-sized company 35%, large companies 25%, research institutions (as part of a collaboration) 80%; Max. funding amount: €500,000 per project; Women's bonus: €10,000; Minimum project value: €50,000

Submissions: 2018/05/17 to 2018/09/13

1st contact: Dr. Bernhard Steinmayer

T: +43 1 - 4000 86162, steinmayer@wirtschaftsagentur.at

Who is eligible: Companies in the founding process, small, medium-sized and large companies, research institutions (as part of a collaboration)

Eligible costs: Personnel costs, external services, investment costs, external costs for protecting R&D results, equipment costs, costs related to clinical studies and approval of new products and the first-time set-up of a quality management system

Eligibility criteria: Projects with societal relevance, which address the challenges in the area of human health and give reason to expect a positive, comprehensive impact will be supported.

Office in Vienna.

Women's bonus: Any funded projects with proven female management will receive an additional €10,000.

Regional Programmes

Programme 2:

Zukunftsfonds Steiermark - Geschäftsstelle

<http://www.zukunftsfonds.steiermark.at>

The aim is to promote innovative and future-oriented projects in order to strengthen the location of Styria and to prepare for the European and global challenges of the coming decades. In 2017 a call with the topic “Supporting R&D projects in the healthcare system” was launched.

Opportunities for the AAL community in Austria

**3. *Foundations with
active and healthy
ageing in their mission***

Foundations with active and healthy ageing in their mission

Foundation 1: AAL Austria

<http://www.aal.at/>

On the initiative of the Federal Ministry of Transport, Innovation and Technology, the platform AAL AUSTRIA was founded in April 2012 with the aim of networking the heterogeneous stakeholder landscape in the area of AAL, thus creating and expanding it to promote an Austrian AAL community and the visibility of AAL at all levels of public awareness.

Kind of support: Networking, recommendations and guidelines

Contact: AAL AUSTRIA
1080 Wien, Laudongasse 21/13
E-Mail: kontakt@aal.at

Foundations with active and healthy ageing in their mission

Foundation 2: LISAvienna

<https://www.lisavienna.at/>

LISAvienna is a joint life science platform operated by Austria Wirtschaftsservice and the Vienna Business Agency. On behalf of the Austrian Federal Ministry for Digital and Economic Affairs and the City of Vienna, it contributes to the advancement of life sciences in Vienna. LISAvienna supports innovative biotech, pharmaceutical and medical technology companies in Vienna that develop and market new products, services and processes. The platform links these companies with development partners and key customers. As a central knowledge carrier, LISAvienna provides input for decisions to advance the life sciences in Vienna and contributes to positioning the city of Vienna as one of the leading European innovation centers.

5. Incubators

Incubators

Incubator 1: INiTS

<http://www.inits.at/>

INiTS is a business incubator designed to improve the rate of startup success in Vienna by helping young entrepreneurs conceive, launch and grow the next great company. During the intensive incubation program, startups receive hands-on support, resources, a network and an office space to bring them to the next level.

Offer: up to € 100.000 financial resources per startup (partly to be paid back depending on their success) and INiTS development support for up to 1 year consisting in office and infrastructure, consulting and training through the INiTS startup consultant team, access to the INiTS network of experts and mentors and a competitive and innovative startup community.

Incubators

As an Upper Austrian innovation and partnership network for research-based and technology-oriented business ideas and business startups, they help people to realize their ideas.

They accompany academics from the high-tech sector in the start-up phase of setting up a business and support them with a unique comprehensive start-up package of services such as consulting, financing, infrastructure and network, all available from a single source.

The projects are realized in cooperation with Upper Austrian research institutions such as the Johannes Kepler University Linz, the Upper Austrian Universities of Applied Sciences and non-university research centers, in cooperation with researchers, experts and ambitious company founders as well as through the support of their shareholders, partners and investors.

Incubators

Incubator 10:

i5invest Beratungs GmbH

<http://i5invest.com/>

i5invest is an incubator that creates the successful web and mobile businesses of tomorrow. They focus specifically on transaction oriented B2C, B2B internet and mobile internet ventures.

The incubator is led by seasoned entrepreneurs, developers and communication professionals with a network that extends from Vienna to New York and Silicon Valley. Alongside starting companies, they also run a small band accelerator program – where i5invest helps handpicked startups (no more than 2 per year) to gain traction, find investors, build a world class team and internationalize.

Part of i5invest's panoply are seed investments into startups, advice on M&A activities and helping investors to divest/sell/exit their shares.

“i5” represents the core capabilities and philosophy of the incubator: innovate, inspire, incubate, invest and internationalize.
